USB™ 4K ULTRA HD Webcam with 5x Digital Zoom Remote Control

macOS® / Windows® / Chrome OS™ Compatible

JVCU435

4K Ultra HD Video and Dual Microphones

Premium quality 4K video resolution combined with built-in high-fidelity microphones deliver exceptional video and audio performance, allowing subtle details of movements to be seen and everyone to be heard.

Electronic Pan/Tilt/Zoom Options

Easily control the camera pan, tilt, and 5x zoom for a close up view using the included IR remote control.

Protect Your Digital Privacy

Two ways to disable the lens for ensured privacy. Keep the privacy cover on at all times when not using the camera or quickly disable the camera audio and video with the remote control.

Works with Your Favorite Video Conferencing Software

Compatible with Zoom™, Facebook™ Messenger, Skype®, Microsoft® Teams, and more.

The JVCU435 is an Ultra HD 4K webcam that offers ePTZ functionality via remote control. It has several different display modes and wide-angle viewing modes, making it perfect for meetings in large conference rooms and also for single person use for streaming or calls with friends and family.

In addition, the JVCU435 has built-in low-light enhancement, built-in dual high-fidelity microphones, and two ways to disable the lens for privacy. The 4K camera is plug-and-play, meaning there is no driver installation required.

360° All Around Webcam

Windows® / macOS® / Chrome OS™ Compatible

JVCU360

Ultra-Wide Angle Lens & Six Display Modes

In addition to the generously wide field of view that the ultra-wide angle lens delivers, the versatile display modes provide a flexible and effective virtual meeting solution, whether it's for remote conferencing, online classes, socially distant events or personal meetings.

360° Camera in HD 1080P

360° camera gives you the ability to capture every person in the room with clarity.

Built-In Microphone

Built-in omnidirectional microphone with an audio pick up radius of 10 feet, every participant can be heard.

Touch Bar Control

Touch bar control is enabled in Host mode or Dual Host mode. Simply swipe on the touch bar to select the host or to control the viewing angle.

For Any Space, Every Conversation

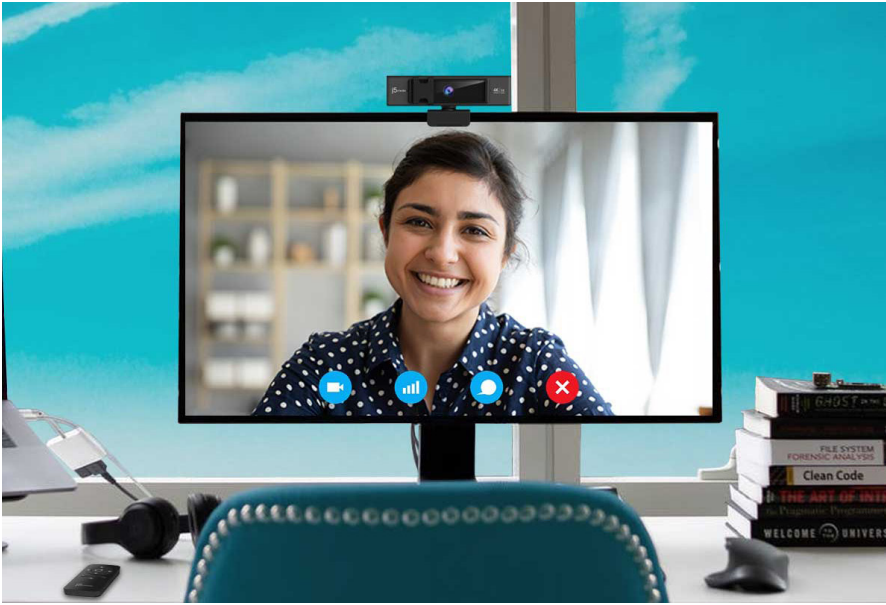

Enhance your conference calls with the 360° All Around Webcam. This all-in-one virtual meeting device combines HD video with business-grade audio clarity, to help run your video conferences smoothly.

This high-definition, plug-and-play webcam, is ideal for any space. Capture a 360° panoramic view of the room or focus on specific presenters with the various display modes. The 360° All Around Webcam improves your overall video conferencing experience.

We Develop. We Innovate. We Create.

j5create® is a team that has come together from a diverse set of backgrounds to make technologies more meaningful and inclusive. We design, build, sell and support innovation technology, and we find creative ways to apply new technologies to provide computing solutions.

Passion With a Purpose

Whether our job is designing products or empowering people to leverage technology, we're united by one mission: to bring innovation and the latest technology to every user in the world.

Work With the Best

We only use premium quality materials and components to create our high-performance products. Additionally, we collaborate with vendors of the world's top PC manufacturers.

Commitment to Quality

Vertical integration from IC design to production allows us to maintain a high level of quality control and quality assurance. We ensure that best practices are spread throughout the entire organization and build our growth through close partnerships and long-lasting relationships with our customers.

Create Experiences

Driven by our passion for technology and our instinct for innovation, we design products to meet today's demands and develop solutions that have real significance to your world.

j5create®

Quality In Every Detail

At j5create®, we create high-tech products that help improve the way we experience our everyday lives. We tackle issues that affect you daily and turn to technological innovation to find solutions. While we strive for innovation, we never compromise the quality in product design. Our products are all carefully engineered and designed with durable materials, while maintaining a compact and sleek design.

Today our products empower people from all over the world - from individuals and IT professionals to digital nomads and entrepreneurs - to utilize their computers to their fullest potential and to create an impactful experience. Looking ahead, we aim to elevate your computing experience to be more productive and more efficient.
