About Us

AVerMedia

AVerMedia Technologies specializes in digital video and audio technology. We provide cutting-edge, high-quality audio and video peripherals, professional capturing and streaming solutions, Edge AI technology, video collaboration solutions, and more.

Our mission is to provide an enriched user experience and effective communication in education, content creation, and video communication via innovative and eco-friendly solutions.

Creator Product Line

AVerMedia Creator ecosystem is created to facilitate and enhance the content creation process.
Our goal is to provide the right tools to simplify and amplify your content creation journey so that you can focus on creating extraordinary content.

Our business product portfolio include
a wide variety of capture cards, central control devices, microphones and other streaming gear further enhanced by our dedicated softwares, Rec Central, Creator Central and Cam Engine 4

Environmental & Social Responsibility

For AVerMedia, environmental protection is a long-term commitment. We have a comprehensive environmental management system and have acquired Green product partner certification, so our customers can be assured that our products are made with the least possible amount of carbon emissions.

In addition, we have held Clean Earth events every year since 2002, in order to provide a good example for our communities.
