PHiStek
Display Solution Provider

S101

AI Contactless Access Control System

Edge AI enabled
Deep Learning, CNN Algorithm

Thermal Sensor
Body temperature measurement

Mask Detection
AI machine-learning inference

Full HD Video
1080p , 2MP

IC Card Reader
Identify the real ID

NFC module(option)
Mobile devices applications
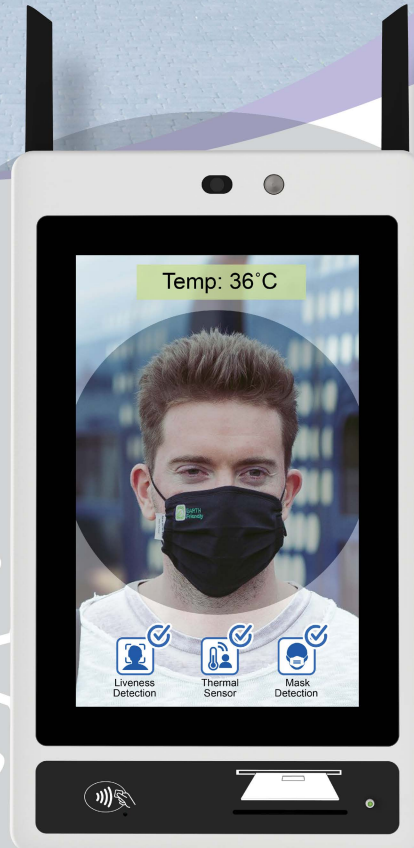

Facial Recognition
99.7% high accuracy

Liveness Detection
Biometric anti-spoofing

Network connection
Intranet

Digital Vaccine Pass
Vaccination QR code verification

Wide Detection Range
Recognition Range: 30-100cm

Voice warnings
Instant voice reminder of abnormal status

Temp: 36°C

Liveness Detection | Thermal Sensor | Mask Detection

Benifits & Features
- Post-epidemic era contactless AI Guard
- Integrate with attendance system & statistic report
- Multi-path reader to the real ID & other applications
- Cost down the labor of epidemic prevention affairs

Hotel / Airbnb | Schools | Medical institutions | Office buildings | Entertainment malls
