Edge AI Made Easy

- ▸ AI Powered Video Analytics
- ▸ Versatile Applications
- ▸ Customized Solutions
- ▸ Fast Deployment
- ▸ Utilize Legacy Cameras
- ▸ Less Monitoring Manpower
- ▸ Remote Management

VΛISENSE is a trusted single source for everything you need to launch your own edge AI solution, using visual sensing. This includes the hardware to process data where it is gathered, the software to build these applications, the cloud infrastructure to manage this hardware, and the support that you need to make your experience as simple as possible.

Process AI at the edge using any camera and our custom IPCs. Having this flexibility saves on bandwidth, latency, privacy, and costs.
