

AIO Creator All-In-One PC
Mercury Series

AIO Creator

Mercury Series

Concept

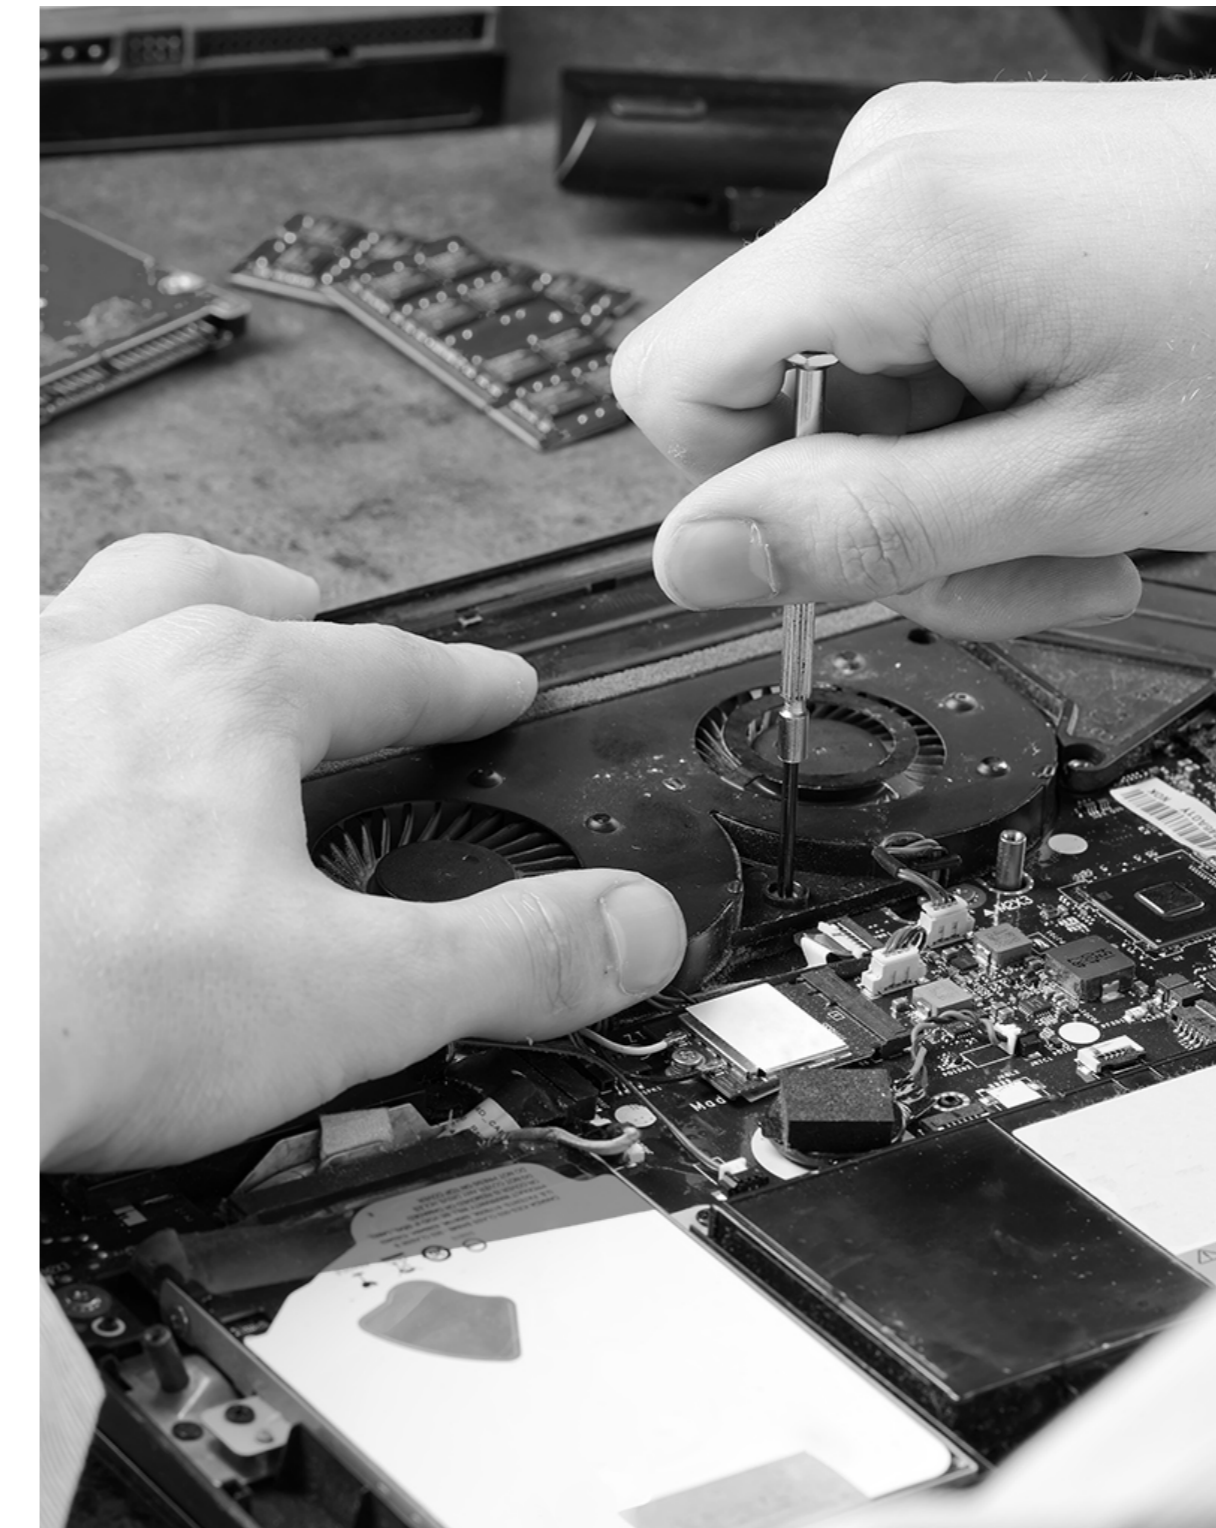

Mercury, represents transition. It is the first DIY AIO with user-friendly design for easy assembly, transforming normal AIO into an art. Mercury expands the essence of DIY, allowing users to embrace the manual artistry and visual beauty of hands-on customization.

Problem

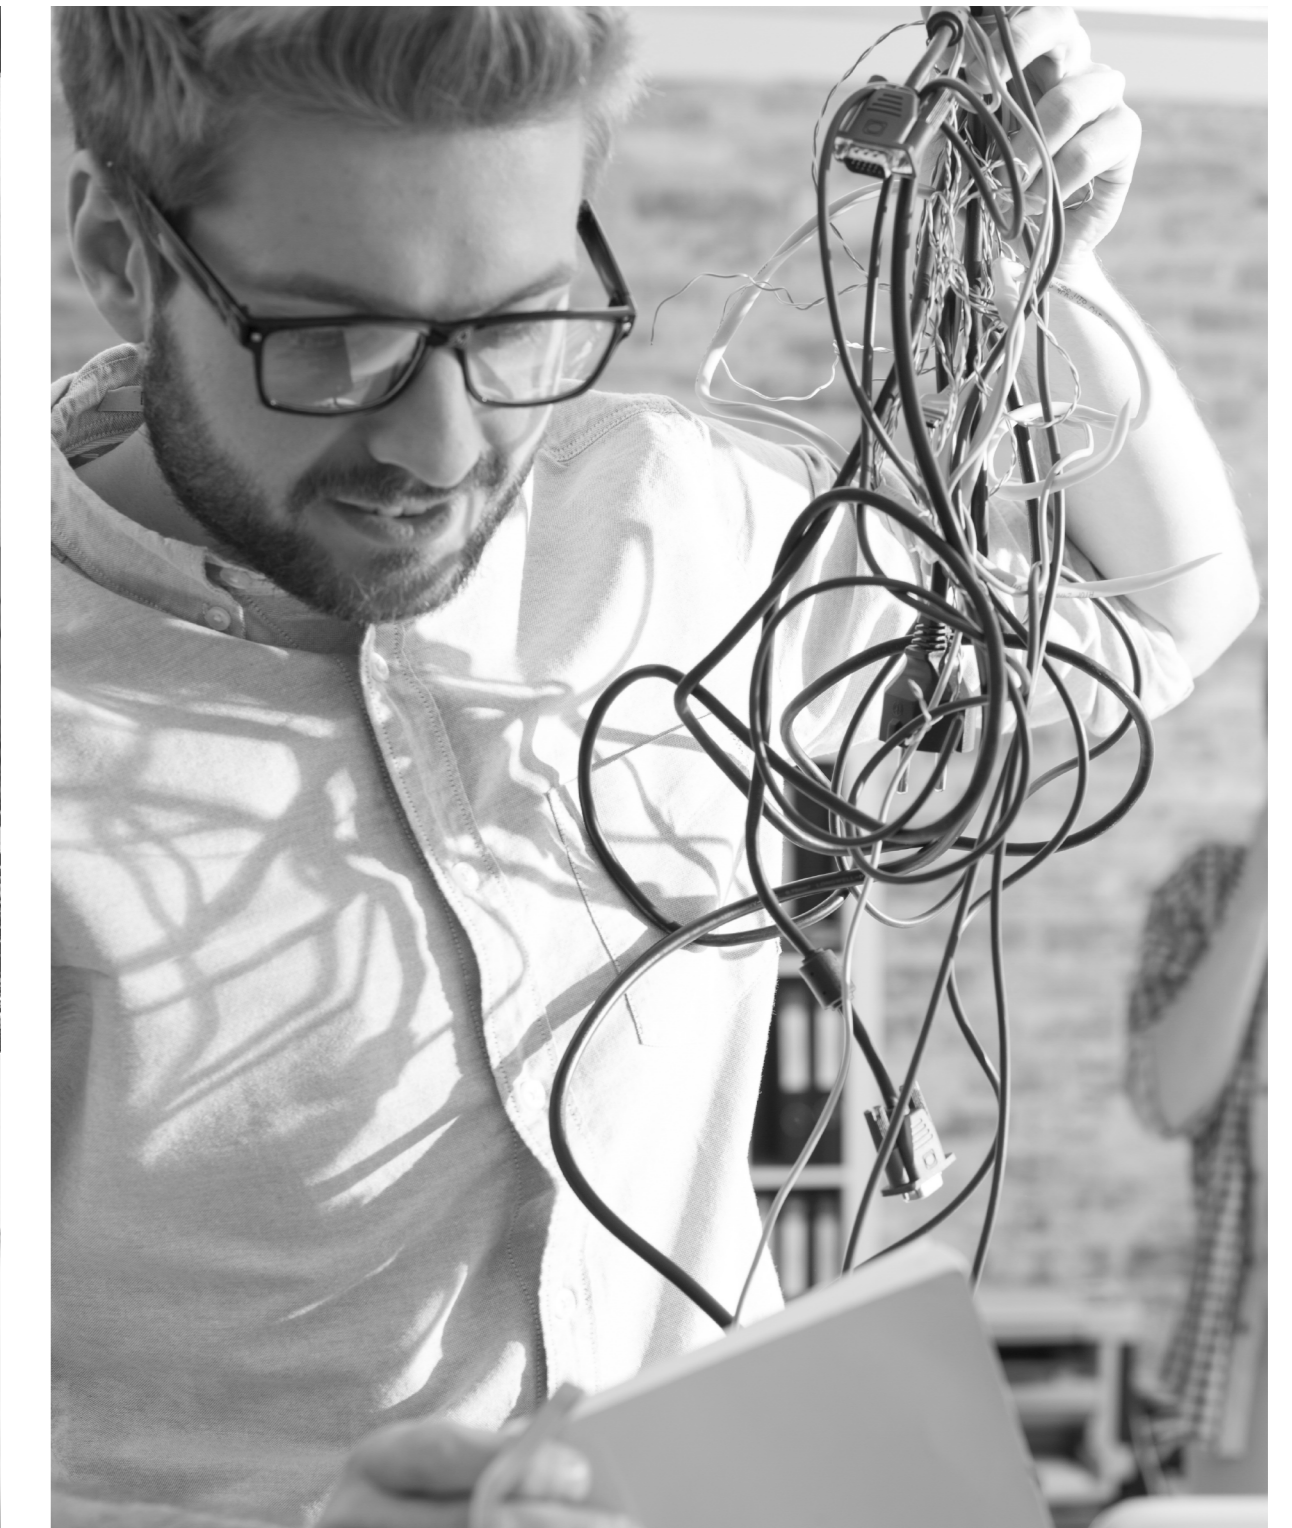

IO Port

In regular AIO, the position of IO port is not always user-friendly, lack of clear labels.

Assembly

Internal clutter, making assembly, disassembly, upgrades, and maintenance difficult.

Cable Collection

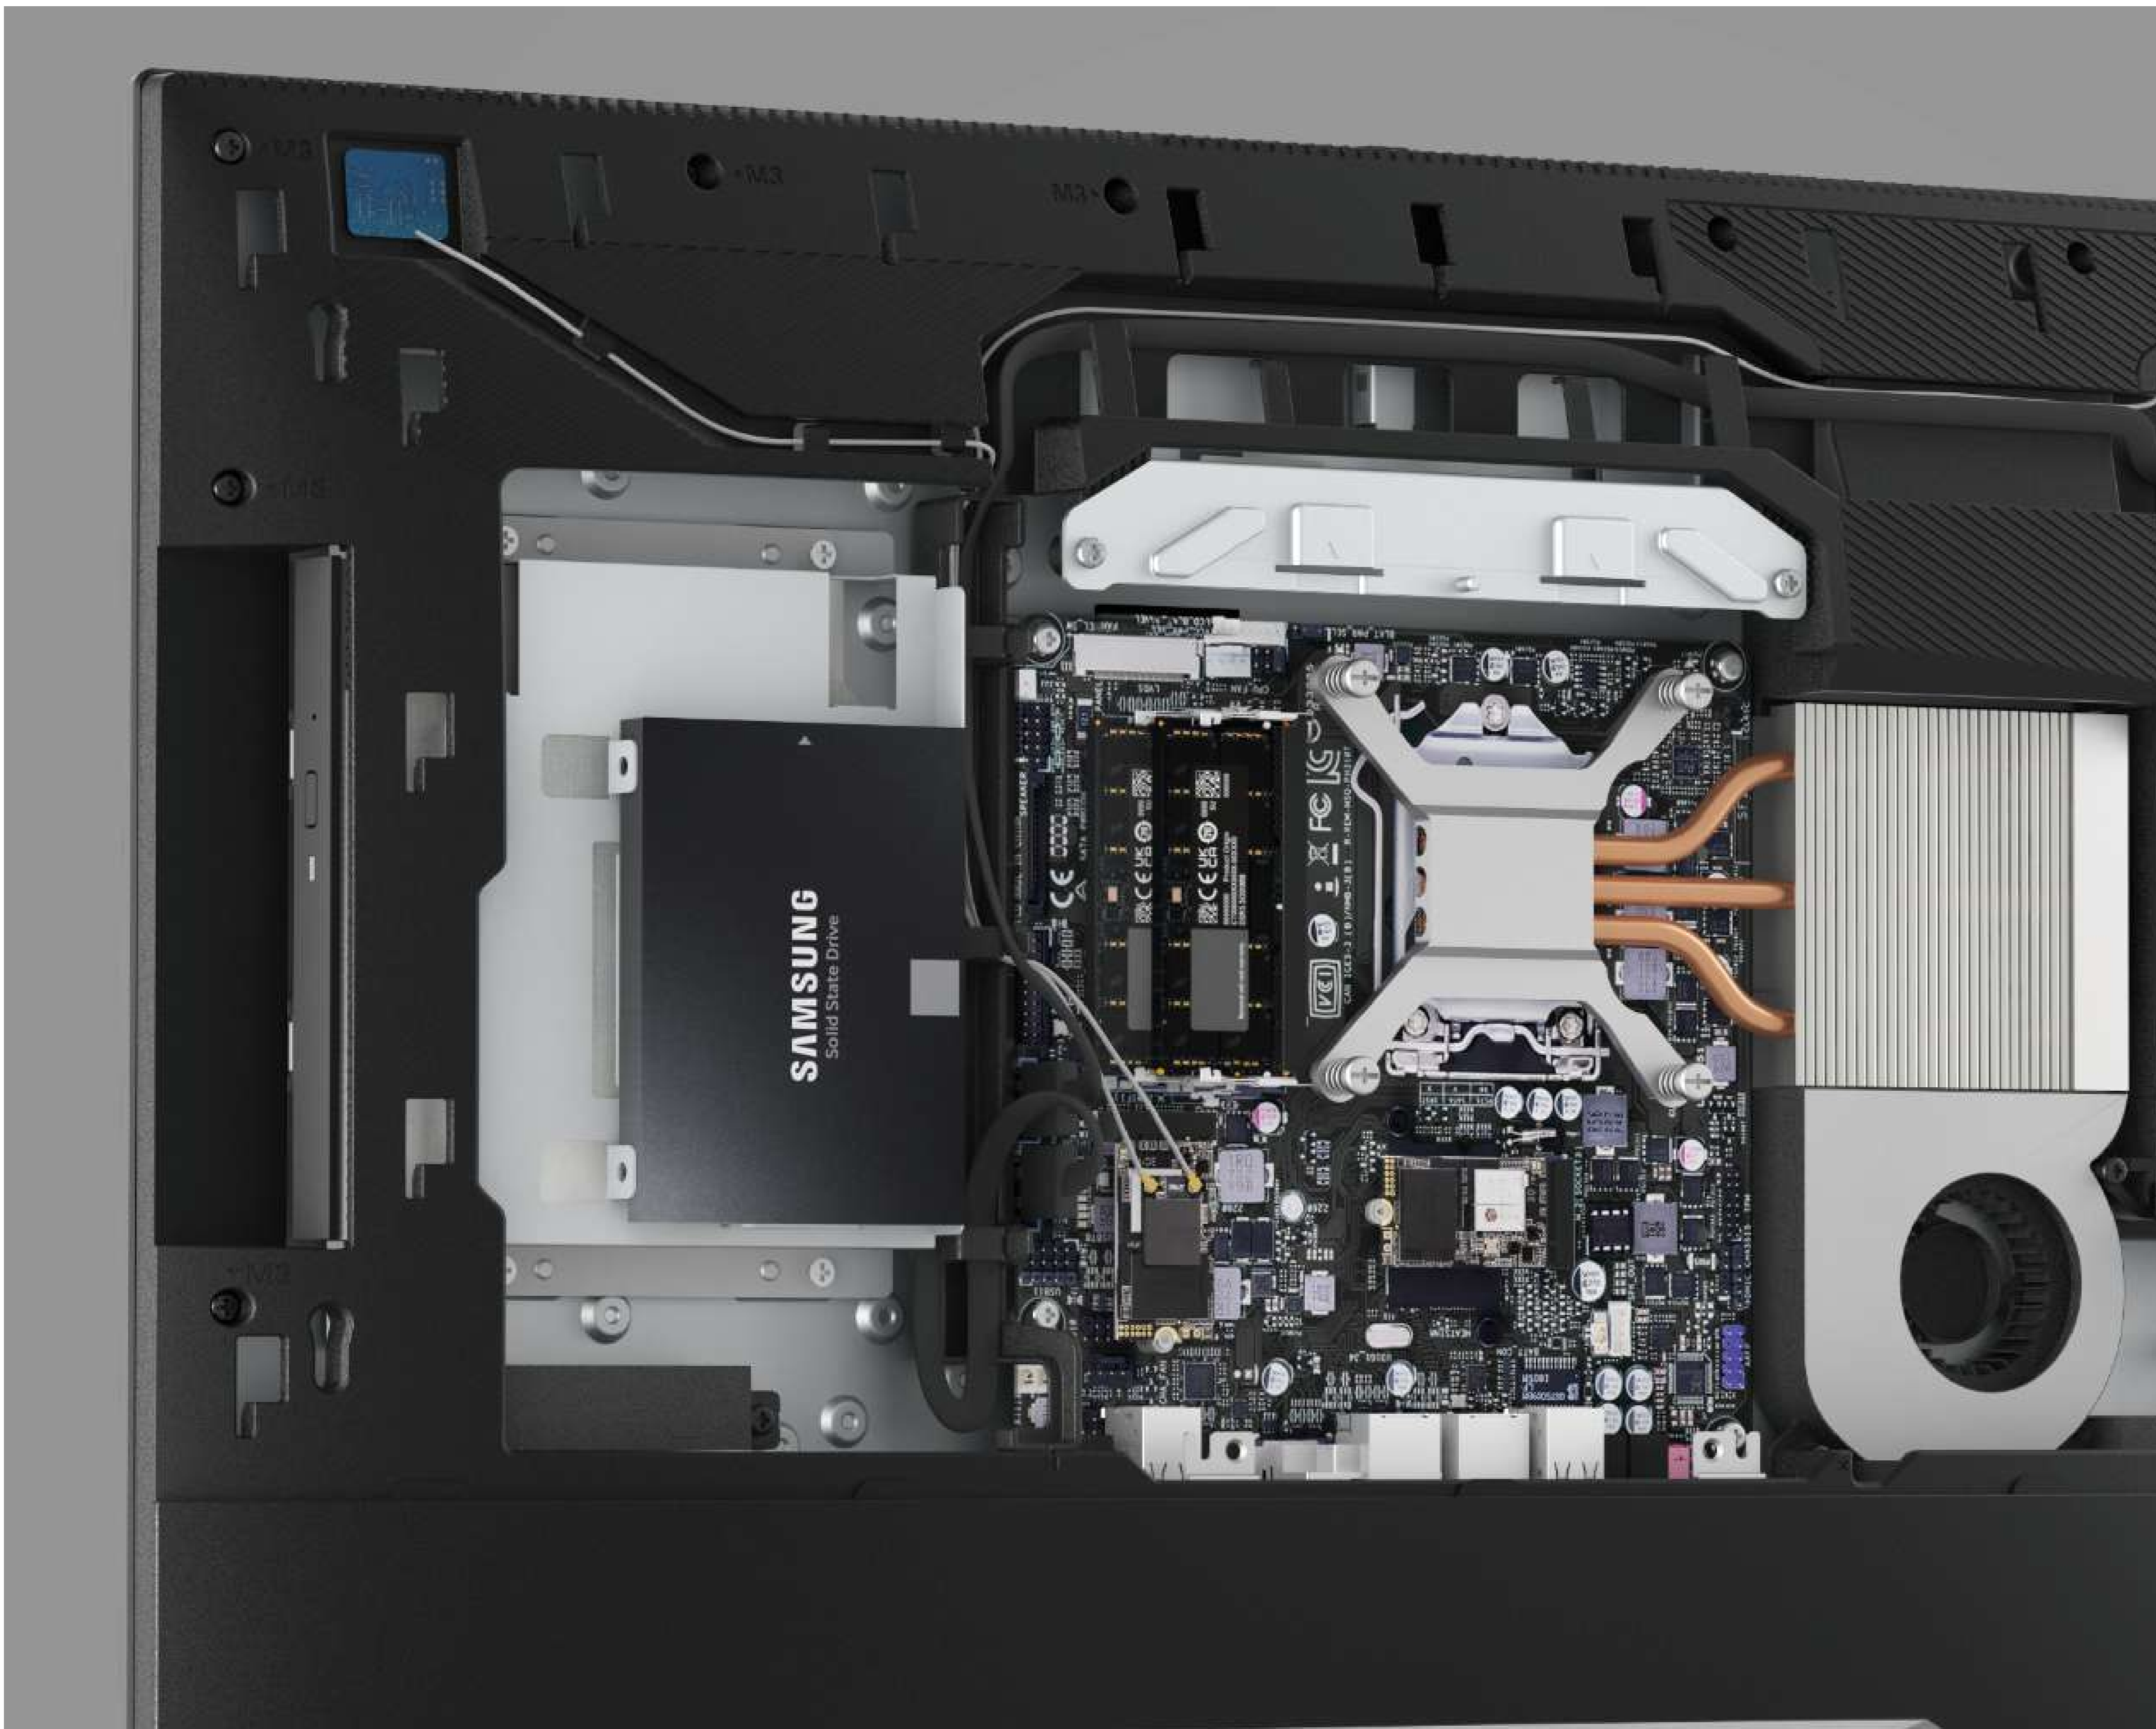

Lack of cable management systems for neat and organized wiring.

Features

Front IO

With power button, LCD lock, audio port, USB A, USB C quick charge, SD card reader, ensure hassle-free plug-and-play for daily usage.

Cable tunnel make sure assemble process is easy and clean.

Exclusive shock proof clip, keep HDD from vibrating.

Features

Efficient Assembly

Mercury is born with special inner chassis, making the installation easier, and allowing users to freely upgrade and maintain.

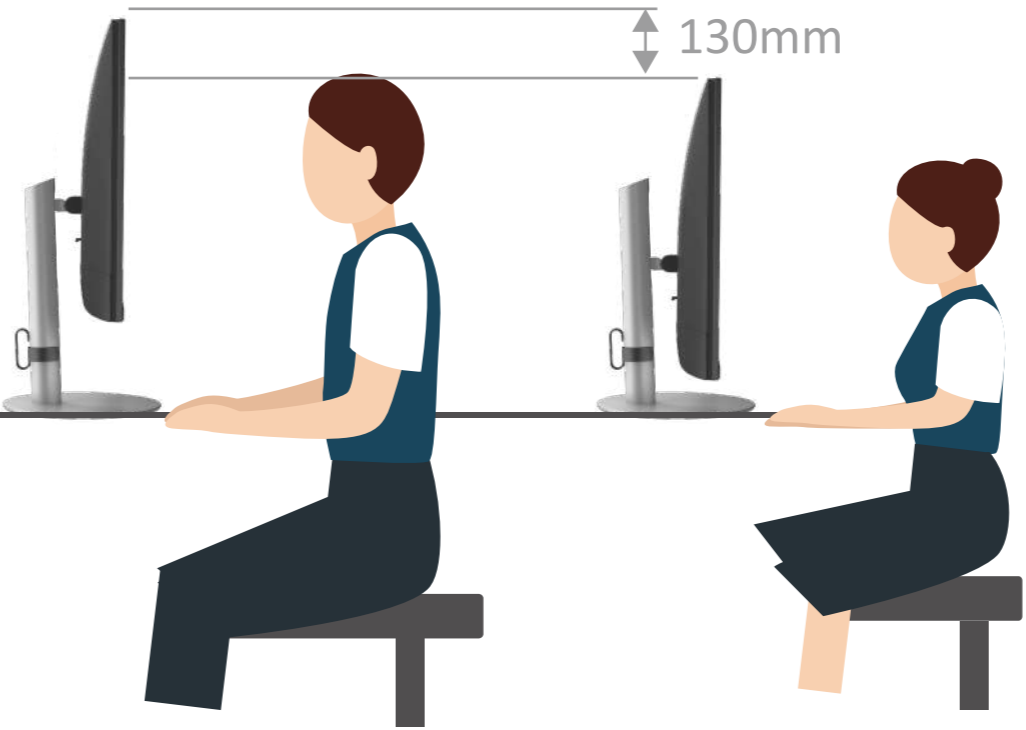

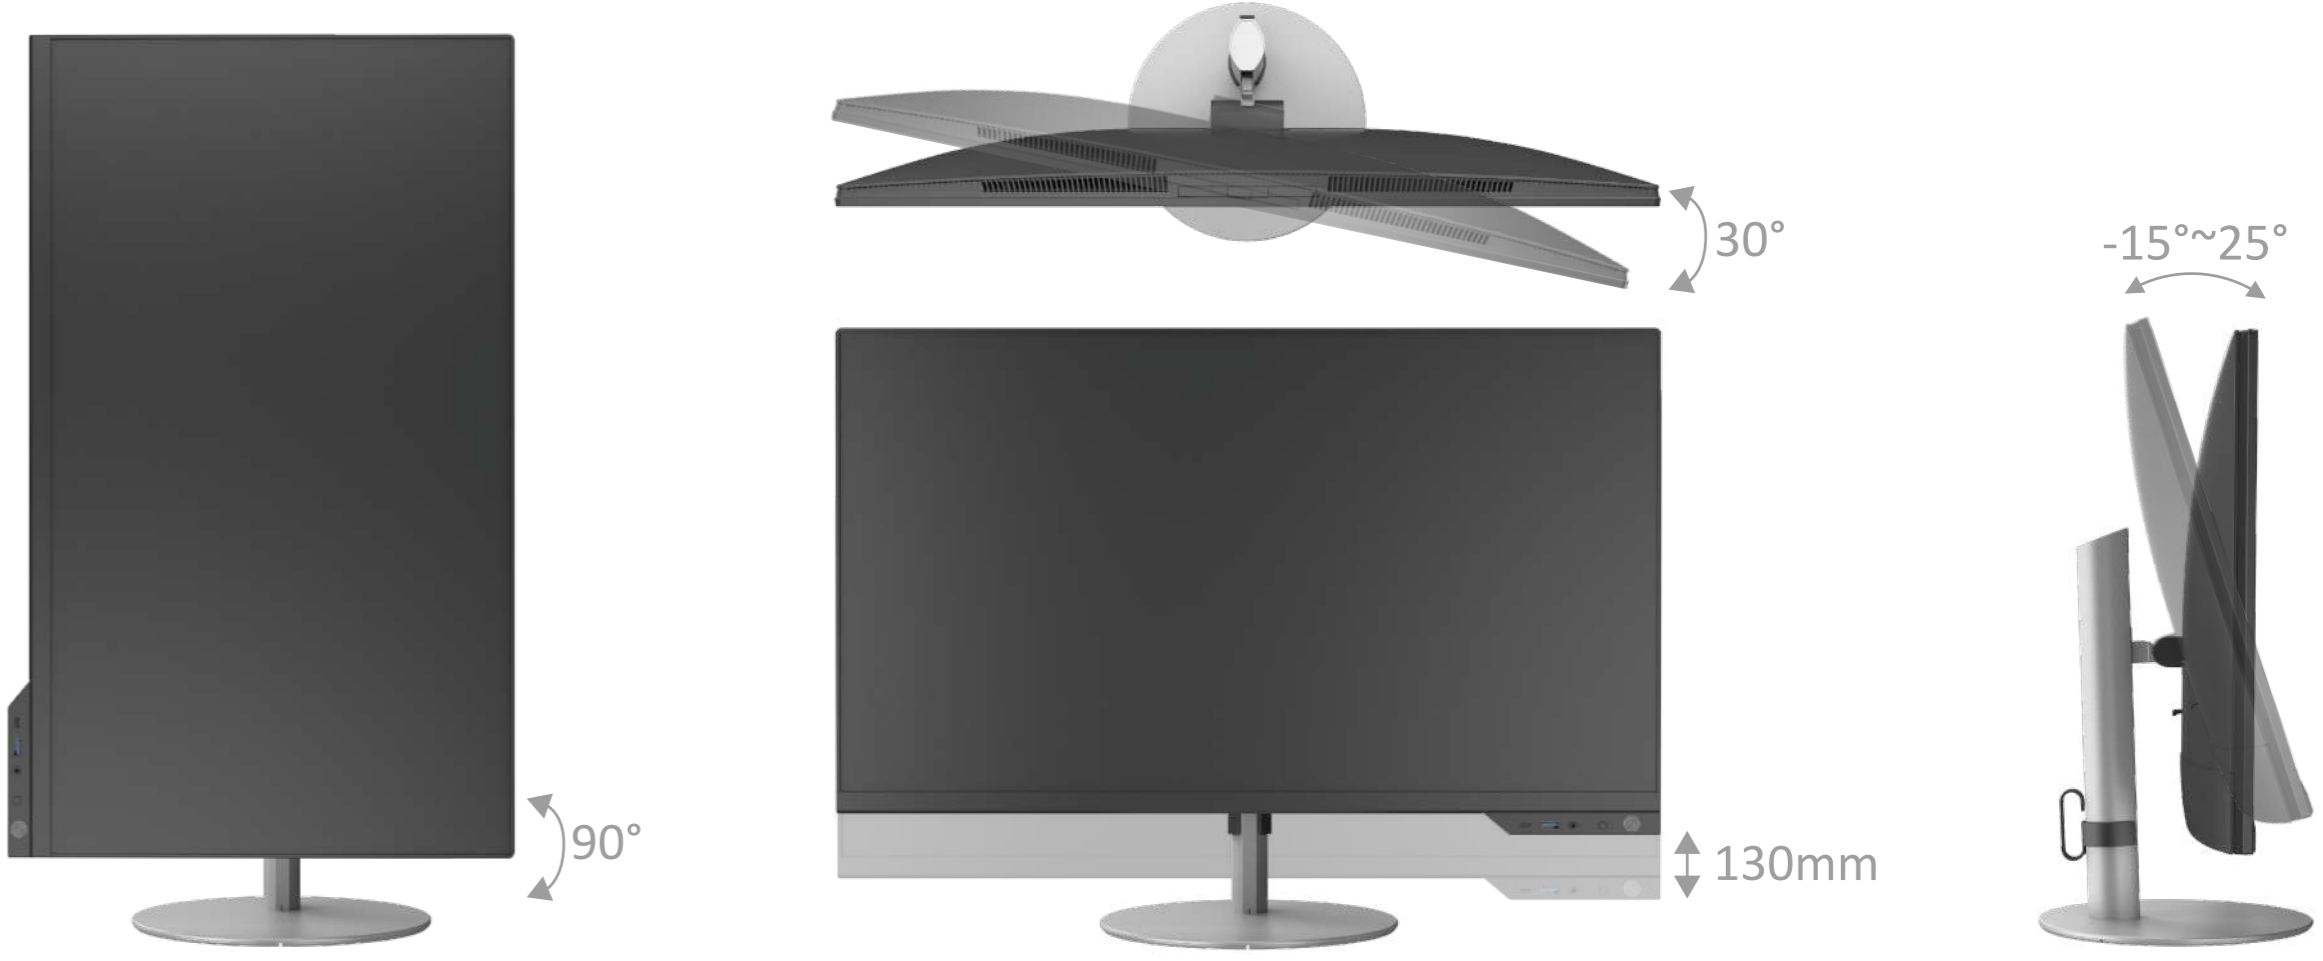

Features

Cable collection

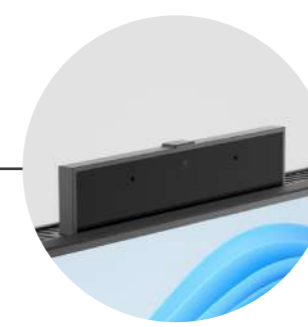

With dust-proof cable cover and cable ring, peripherals can be managed in a more concise way. No tools needed, no screws and holes in the back, making everything in one piece.

Has stand

The stand has height and angle adjustment features, allowing different users to freely adjust the screen angle and height to their own comfort.

Function

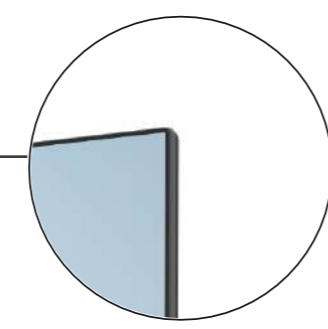

5Mp Face recognition Hello Camera

High Secure Face recognition Microsoft Hello Face recognition Camera

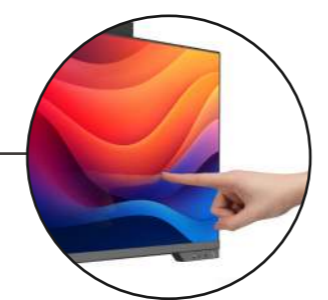

Noise-Cancellation Dual Digital Mic

Without background noise during the video call

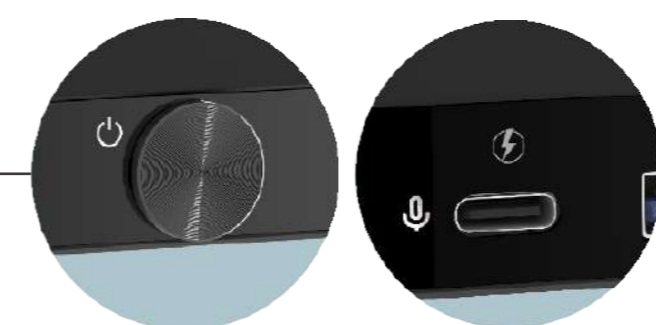

3-Side Borderless

3-Side Borderless Edge to Edge Viewing Experience
